

**Freedom of Information Request**

**Ref: 23-609**

4 September 2023

By Email

Dear Sir/Madam

Thank you for your request for information under the Freedom of Information Act 2000. The Trust's response is as follows:

- We can confirm that we do hold the information you are requesting

Please note the information we have provided is for paediatrics only – adult dialysis is provided by North Bristol NHS Trust – please contact [foi@nbt.nhs.uk](mailto:foi@nbt.nhs.uk) for further information.

**1. How many patients are on dialysis at the trust and are these being seen two or three times per week?**

\* patients - approximately 3-4 times per week.

Please note: Where the figures are between 1 and 5, this has been denoted by \*. Due to the low numbers, we have considered that there is the potential for individuals to be identified from the information provided, when considered with other information that may also be in the public domain. In our view disclosure of these low figures would breach one of the Data Protection Principles set out in Schedule 1 of the Data Protection Act, namely Principle 1. The Trust therefore finds that the Section 40(2) exemption contained within the Freedom of information Act 2000 is engaged. This follows NHS Digital (formerly HSCIC) analysis guidance (2014) which states that small numbers within local authorities, wards, postcode districts, providers and Trusts may allow identification of patients and should not be published.

**2. What is your current capacity level and what is your maximum capacity level of renal dialysis?**

48 haemodialysis sessions per week depending on patient acuity. Also providing a peritoneal dialysis service.

**3. What is your current number of dialysis stations/beds?**

Four haemodialysis stations with two inpatient beds

**4. What is the average cost per patient for renal dialysis within an NHS trust environment?**

£556 per day

**5. Do you run two or three sessions per day and how many days per week do you run your service for?**

Two sessions/6 days per week

**6. What is your contingency plan for when you run out of internal dialysis capacity?**

Increase staffing/sessions, refer to neighbouring centres, switch modality, use PICU support if available, reduce sessions per patient.

**7. Where does the primary source of funding for the renal department stem from? Is it directly from the trust or the ICB?**

NHSE via specialist commissioners.

This concludes our response. We trust that you find this helpful, but please do not hesitate to contact us directly if we can be of any further assistance.

If, after that, you are dissatisfied with the handling of your request, you have the right to ask for an internal review. Internal review requests should be submitted within two months of the date of receipt of the response to your original letter and should be addressed to:

Data Protection Officer  
University Hospitals Bristol and Weston NHS Foundation Trust  
Trust Headquarters  
Marlborough Street  
Bristol  
BS1 3NU

Please remember to quote the reference number above in any future communications.

If you are not content with the outcome of the internal review, you have the right to apply directly to the Information Commissioner for a decision. The Information Commissioner can be contacted at: Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF

Publication

Please note that this letter and the information included/attached will be published on our website as part of the Trust's Freedom of Information Publication Log. This is because information disclosed in accordance with the Freedom of Information Act is disclosed to the public, not just to the individual making the request. We will remove any personal information (such as your name, email and so on) from any information we make public to protect your personal information.
