By Email

Dear Sir/Madam

Thank you for your request for information under the Freedom of Information Act 2000. The Trust's response is as follows:

- We can confirm that we do hold the information you are requesting

1. What Electronic Patient Records system does the Trust use?

System C Careflow

2. Does the Trust have a patient portal that allows patients to see their results, letters and appointments.

Yes

3. If you have surgical departments, how are the operating notes documented?

- hand-written?

- using specialised software?

Operation note creation is mixed practice across the Trust, with some teams using electronic notes within Careflow Electronic Patient Records, and others using dedicated specialist software and others handwriting notes. Handwritten operation notes get scanned and uploaded to Evolve at the end of a clinical spell.

4. If you have an urology department:

- What software system is used to track the JJ stents (Excel, other 3rd party software)

- What system or software is used to monitor patients with prostate cancer on active surveillance.~

- If 3rd party software is used what is the associated cost?

The urology service is provided by North Bristol NHS Trust. Please contact foi@nbt.nhs.uk for further information.

This concludes our response. We trust that you find this helpful, but please do not hesitate to contact us directly if we can be of any further assistance.
