Please note: Where the figures are between 1 and 5, this has been denoted by \*. Due to the low numbers, we have considered that there is the potential for individuals to be identified from the information provided, when considered with other information that may also be in the public domain. In our view disclosure of these low figures would breach one of the Data Protection Principles set out in Schedule 1 of the Data Protection Act, namely Principle 1. The Trust therefore finds that the Section 40(2) exemption contained within the Freedom of Information Act 2000 is engaged. This follows NHS Digital (formerly HSCIC) analysis guidance (2014) which states that small numbers within local authorities, wards, postcode districts, providers and Trusts may allow identification of patients and should not be published.

\*\* We have not provided the information in the requested format as we have considered that there is the potential for the individuals to be identified, when considered with other information that may be in the public domain. In our view disclosure of information would breach the Data Protection Act. Therefore please find that Section 40 (2) exemption contained within the Freedom of Information Act 2000 is engaged. Section 40 is the exemption for personal information.

This concludes our response. We trust that you find this helpful, but please do not hesitate to contact us directly if we can be of any further assistance.
