(Meaning of API "a set of functions and procedures that allow the creation of applications which access the features or data of an operating system, application, or other service.")

IMPORTANT

- 1. If the organisation has a CRM system or a similar system, there should be a facility to download and extract contract data.**
- 2. You may forward me a Weblink to a portal to download the contract register, please make sure all the organisation's contracts are provided as doing prior research I have found that most organisations have only uploaded a small portion of all their contracts.**
- 3. For those organisations planning to make an exemption around spend, the spend information I have requested is an overall figure and I am not requesting a complete breakdown of services relating to the spend.**

Please provide me with the contract's register file in an excel format.

Please see the attached document. We have included NHS eClass descriptions instead of CPV as we use those for tender not contracts.
