

FOI 22-211 Unity Sexual Health

Revised deadline 9 May 2022

Deadline 5 May 2022

Your Local Authority

1. Name of Local Authority

Unity Sexual Health is commissioned by Bristol, North Somerset and South Gloucestershire (BNSSG) local authorities. This response covers the South Gloucestershire Local Authority

Section 2 - Please respond to the following questions in section 2, for each level 3 sexual health service you commission in your local authority area. Please complete a separate word document for each service.

2.1. Name of clinic/service prescribing PrEP

Concord Medical Centre (South Gloucestershire Local Authority)

2.2. In terms of assessing the eligibility for PrEP, which of the current methods does your service use to assess a patient's eligibility?

- **Email consultation-** Email consultation is offered and used for deaf patients
- **Online screening using e-form-** No
- **Virtual/video consultation-** No
- **Online consultation with a members of staff-** No
- **Telephone consultation with a member of staff-** Yes
- **Voicemail/call back system-** Yes
- **Face to face appointments-** Yes
- **Other (please specify)-** For deaf patients, email consultation or using an app on their mobile' phone to assist

2.3. Is this service currently booking new appointments for PrEP initiation for eligible patients?

- Yes

2.4. Does your service currently have an upper limit or cap on the total number of possible PrEP prescriptions/patients it can accept?

- No

2.5. How many people are currently enrolled in this service receiving PrEP?

1115 people currently enrolled across all local authorities (including patients who are out of area). These are people who have started or continued treatment of PrEP at Unity and have not indicated that they have stopped their treatment.

2.6. How long is the average time from requesting a PrEP appointment to PrEP initiation?

Three months. We work from a combined BNSSG waiting list which is managed centrally

2.7. Is there currently any waiting list for PrEP in your service?

- Yes

If you answered yes, please answer the below:

2.7.1. What is the current average waiting list time for those waiting for PrEP?

The waiting time is 1- 3 months. We work from a combined waiting list.

2.7.2. How many people are currently on the waiting list?

127. This is a combined total for BNSSG.

2.8. Has COVID affected the number of PrEP appointments available?

• Yes (please specify)

The COVID-19 pandemic had affected the capacity of the whole service.

We are running a 'telephone consultation first' service which has reduced capacity for face to face attendances, however, this is balanced by the ability to send PrEP out to patients or allow them to come and pick it up without a face to face appointment for follow ups

2.9. What length of PrEP prescription does the service currently offer for first prescription/initiation (tick all that apply)?

- 3-month prescription- yes
- 6-month prescription- no
- Other – please specify- nil

2.10. What length of PrEP prescription does the service currently offer for repeat and follow up prescriptions (tick all that apply)?

- 3-month prescription- yes
- 6-month prescription-no
- Other – please specify- no

2.11. Please share any data you have about the population prescribed PrEP in this service, broken down by key population groups, specifically, gender, age, sexual orientation and ethnicity?

• Age

Age	Number of people who were prescribed PrEP (since Oct-2020 to Mar-2021) (<u>All residents – including Out of Area</u>)	Percentage
15-24	225	19.96%
25-34	481	42.68%
35-49	293	26.00%
50-64	108	9.58%
65+	20	1.77%
TOTAL	1127	

Age	Number of people who were prescribed PrEP (since Oct-2020 to Mar-2021) (<u>South Gloucestershire residents</u>)	Percentage
15-24	31	16.67%
25-34	85	45.70%
35-49	47	25.27%
50-64	17	9.14%
65+	6	3.23%
TOTAL	186	

• Ethnicity

Ethnicity	Number of people who were prescribed PrEP (since Oct-2020 to Mar-2021) (<u>All residents – including Out of Area</u>)	Percentage
White British	784	69.57%
White Irish	23	2.04%
Any Other White Background	132	11.71%
White and Black Caribbean	11	0.98%

White and Black African	*	*
White and Asian	9	0.80%
Any Other Mixed Background	23	2.04%
Indian	8	0.71%
Pakistani	6	0.53%
Bangladeshi	0	0.00%
Any Other Asian Background	12	1.06%
Caribbean	12	1.06%
African	11	0.98%
Any Other Black Background	*	*
Chinese	17	1.51%
Any Other Ethnic Background	15	1.33%
Not Stated	59	5.24%

Please note: Where the figures are between 1 and 5, this has been denoted by *. Due to the low numbers, we have considered that there is the potential for individuals to be identified from the information provided, when considered with other information that may also be in the public domain. In our view disclosure of these low figures would breach one of the Data Protection Principles set out in Schedule 1 of the Data Protection Act, namely Principle 1. The Trust therefore finds that the Section 40(2) exemption contained within the Freedom of information Act 2000 is engaged. (Section 40 is the exemption for personal information).

Ethnicity	Number of patients prescribed PrEP (since Oct-2020 to Mar-2021) (<u>South Gloucestershire residents</u>)	Percentage
White British	148	79.57%
White Irish	*	*
Other White	9	4.84%
White and Black Caribbean	*	*
White and Black African	0	0.00%
White and Asian	0	0.00%
Other Mixed	*	*
Indian	*	*
Pakistani	*	*
Bangladeshi	0	0.00%
Other Asian	*	*
Caribbean	*	*

2.12. Do you have any plans for targeted outreach to communities currently under-represented in PrEP prescribing in your service?

- Yes

If you answered yes, please answer the questions below:

2.12.1. Are these plans currently funded?

- Yes

2.12.2. Please share any further details of your plans if possible.

Advertising campaign targeted at people of African and Caribbean heritage, LGBTQ+ and young people.

If you answered no to questions 2.12, please answer the question below:

2.12.3. Are there any barriers or reasons why this work is not able to take place? (please specify)

2.13. Are there any PrEP service changes planned or envisaged in the next 6 months?

- Yes (please provide details)

We are anticipating a move to injectable PrEP at some point and also to see whether we will be able to access Descovy for patients with renal and bone issues.

2.14. Do you have the resources or tools you need to ensure everyone who is eligible for PrEP or might benefit from it is identified and able to access PrEP?

• No.

Not able to prescribe Descovy PrEP for those with renal/ bone issues.

No measure of unmet need in community

Need for PrEP to be available for initiation outside sexual health clinics e.g. pharmacies/ GP surgeries.

If you answer no, please answer the below question:

2.14.1. What additional resources does your clinic require to increase the identification of eligible patients and uptake of PrEP?

National drive by respected organisations to highlight availability of PrEP, reduce stigma and increase acceptability.
