

**Freedom of Information Request**

**Ref: 24-969**

10 January 2025

By Email

Dear Sir/Madam

Thank you for your request for information under the Freedom of Information Act 2000. The Trust's response is as follows:

- We can confirm that we do hold the information you are requesting

**Please can you provide me with all data from January 2013 to the present relating to adverse outcomes from circumcision of infant boys (aged 0-1) whether at hospital or off-site.**

**This data to include as a minimum the total number of infant circumcisions performed within the trust's catchment area, all attendances to the Emergency Department and/or admissions to paediatric or general Intensive Care Unit as a result of circumcision, including but not limited to death, coma, life threatening haemorrhage, shock, sepsis, amputation etc.**

**Data should also include any adverse outcomes which are not life threatening but are unintended consequences including but not limited to partial degloving, partial amputation, damage to the scrotum/groin/surrounding tissues, nerve damage, penile adhesions etc.**

**This data should further be broken down by year, by hospital/GP/other medical institution and whether the operation was performed in-house or off-site/in a private location.**

Please see our response in the table below. We cannot provide data relating to adverse outcomes. Please note, the Trust does not hold the data in a format that would enable us to fully respond to your request to the level of detail required and a manual trawl for this information would significantly exceed the 18 hours limit set down by the FOI as the reasonable limit. Section 12 of the FOIA provides that we are not obliged to spend in excess of 18 hours in any sixty-day period locating, retrieving and identifying information in order to deal with a request for information and therefore we are withholding this information at this time.
