

Freedom of Information Request

Ref: 25-042

By Email

Dear Sir/Madam

Thank you for your request for information under the Freedom of Information Act 2000. The Trust's response is as follows:

- We can confirm that we do hold the information you are requesting

I have a question regarding the management of dental patients after they have undergone surgery in non-dental health sectors.

I am so glad to find this information as patients will get information regarding their dental treatments before and after heart surgery.

cavuhb.nhs.wales/our-services/adult-congenital-heart-disease-achd-service/achd-bristol-information/pdfs/dental-information-for-cardiac-surgery/

Wrote that 'It is best to avoid dental treatment for a few months following surgery'.

Could you advise me: with current guidelines how long do we need to avoid treating patients who had following procedures:

1. Joint replacement

2. Heart surgery

-pace maker fitted patient

-heart valve procedure

- cardiac ablation

-stent surgery for heart

-heart attack

3. Cataract surgery

4. Stroke

5. Are there any other medical conditions that mean we need to avoid dental treatments?

We do not have a specific guideline but treatment would depend on the patient factors such as what surgery they have had, how medically compromised they are, how urgent the dental treatment is etc and what medications they are on. We would liaise with the medical team to ensure any treatment done is within a safe window.

This concludes our response. We trust that you find this helpful, but please do not hesitate to contact us directly if we can be of any further assistance.

If, after that, you are dissatisfied with the handling of your request, you have the right to ask for an internal review. Internal review requests should be submitted within two months of the date of receipt of the response to your original letter and should be addressed to:
